A Basic equivalence

➔ Questionnaire = life line

The medical consulting process

► INPUT

COLLECTING DATA

- Occupational
- Medical
- Financial
- Claimant's will (1)

► OUTPUT

DECISION

- Stop /Go
- Benefit
- Disability statement
- Any help

(1) The use of a check-list with factors relevant for work ability assessments
,Patricia Dekkers A, de Wind

CONCLUSION

There is a Competition for the best way to attend for the sick-leave patients between:

- - time line schedule
- - diagnosis
- - patient's say (questionnaire)

And the winner is
