# Background

Increasing demands of quality in medical work disability evaluations

Team-based medical work disability reports is a way for the Swedish Social Insurance Agency (SSIA) to obtain a comprehensive overall picture of a complex state of illness or disability

**Intertek**

# Objectives

Obtain a comprehensive overall picture of a complex state of illness or disability and how it affects performance in daily activity

## Goal

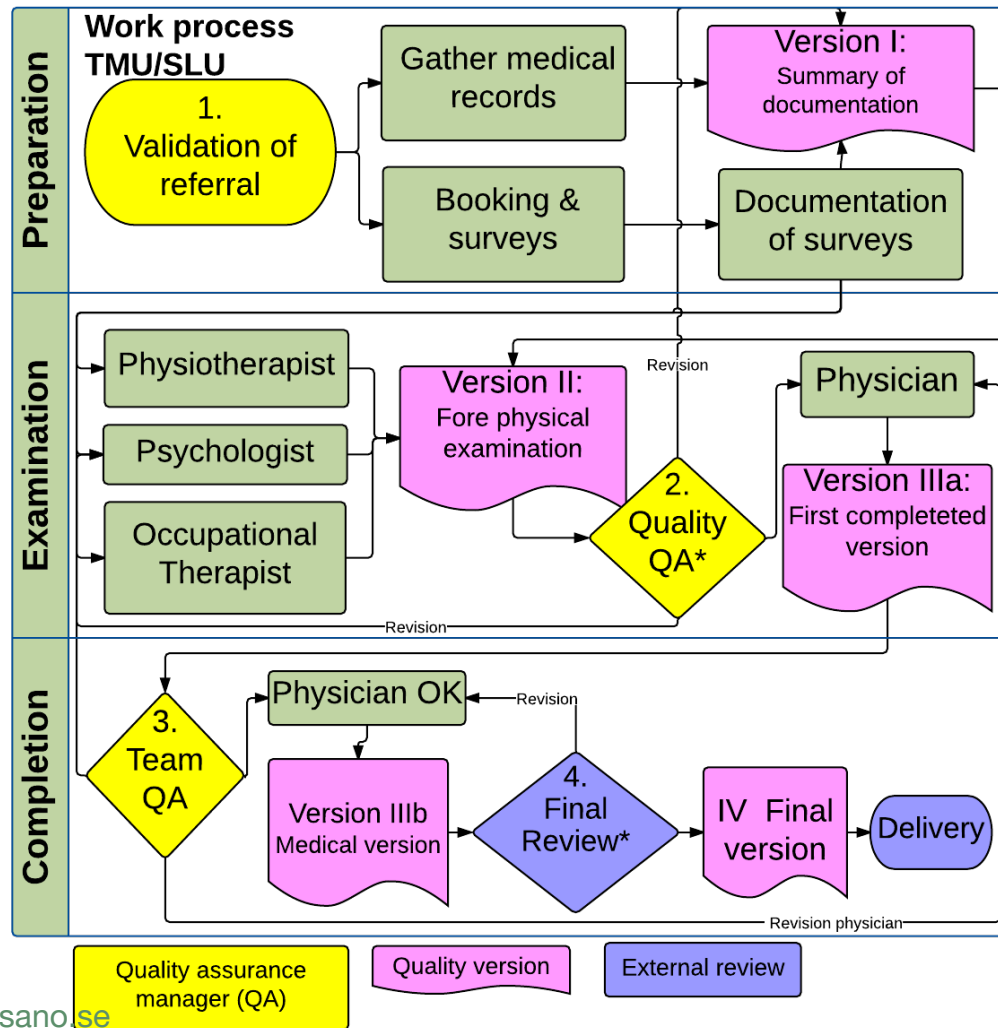

- ❖ 90% reports approved without complementary reviews
- ❖ deliver report to SSIA within 25 work days

# Method

A process-based method supported by an IT-system, QAM in a close and structured cooperation with SIA.

**Intertek**
