Insurance Sweden

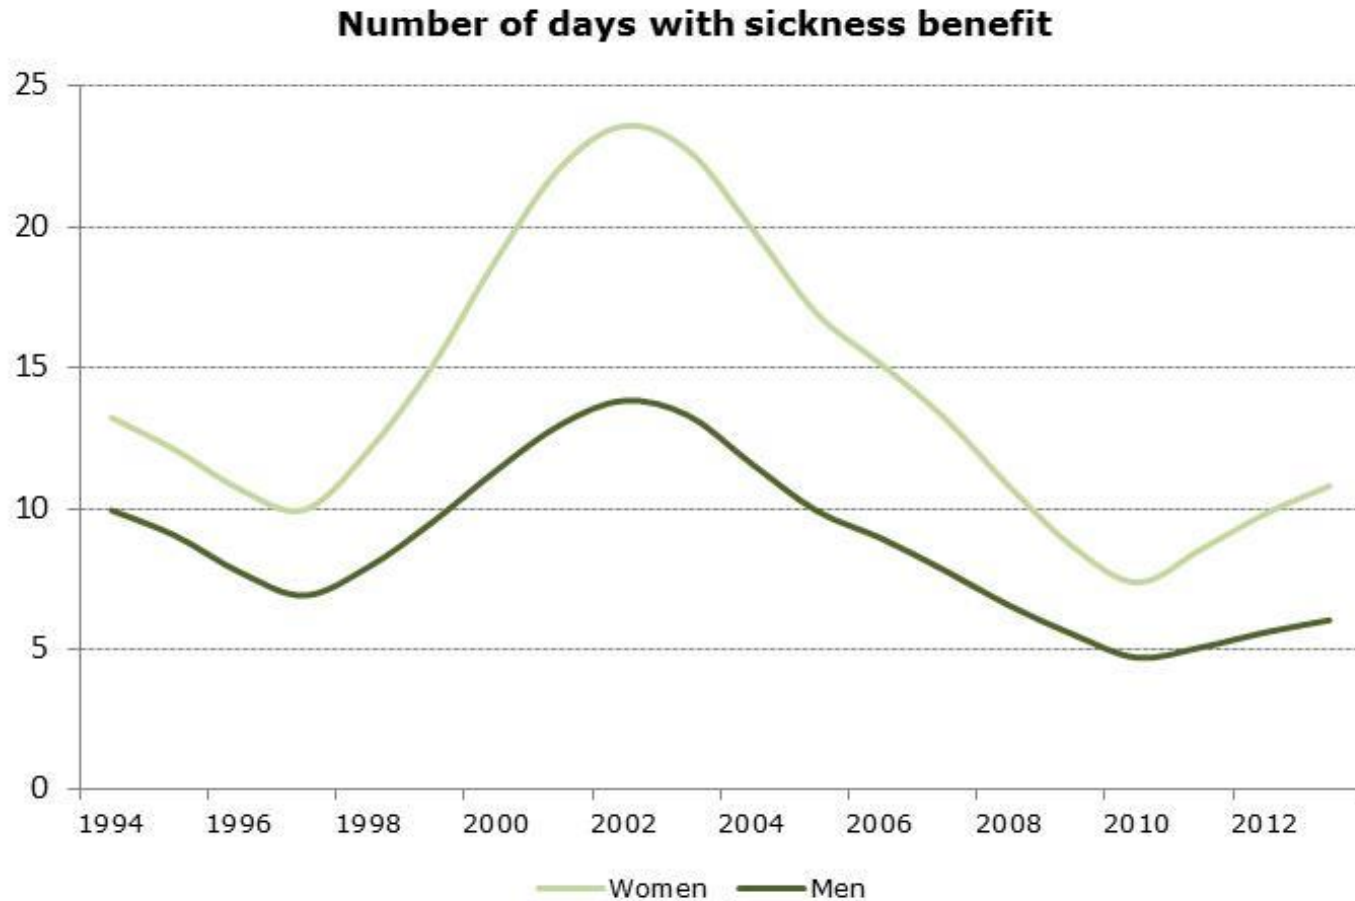

An ageing population and a revolution in health care needs a plan

What do we want to achieve?

- A well-functioning welfare system with good quality today as well as in the future
- Reducing and keeping down the number of sickness days in our society and to maintain working ability
- Healthy ageing

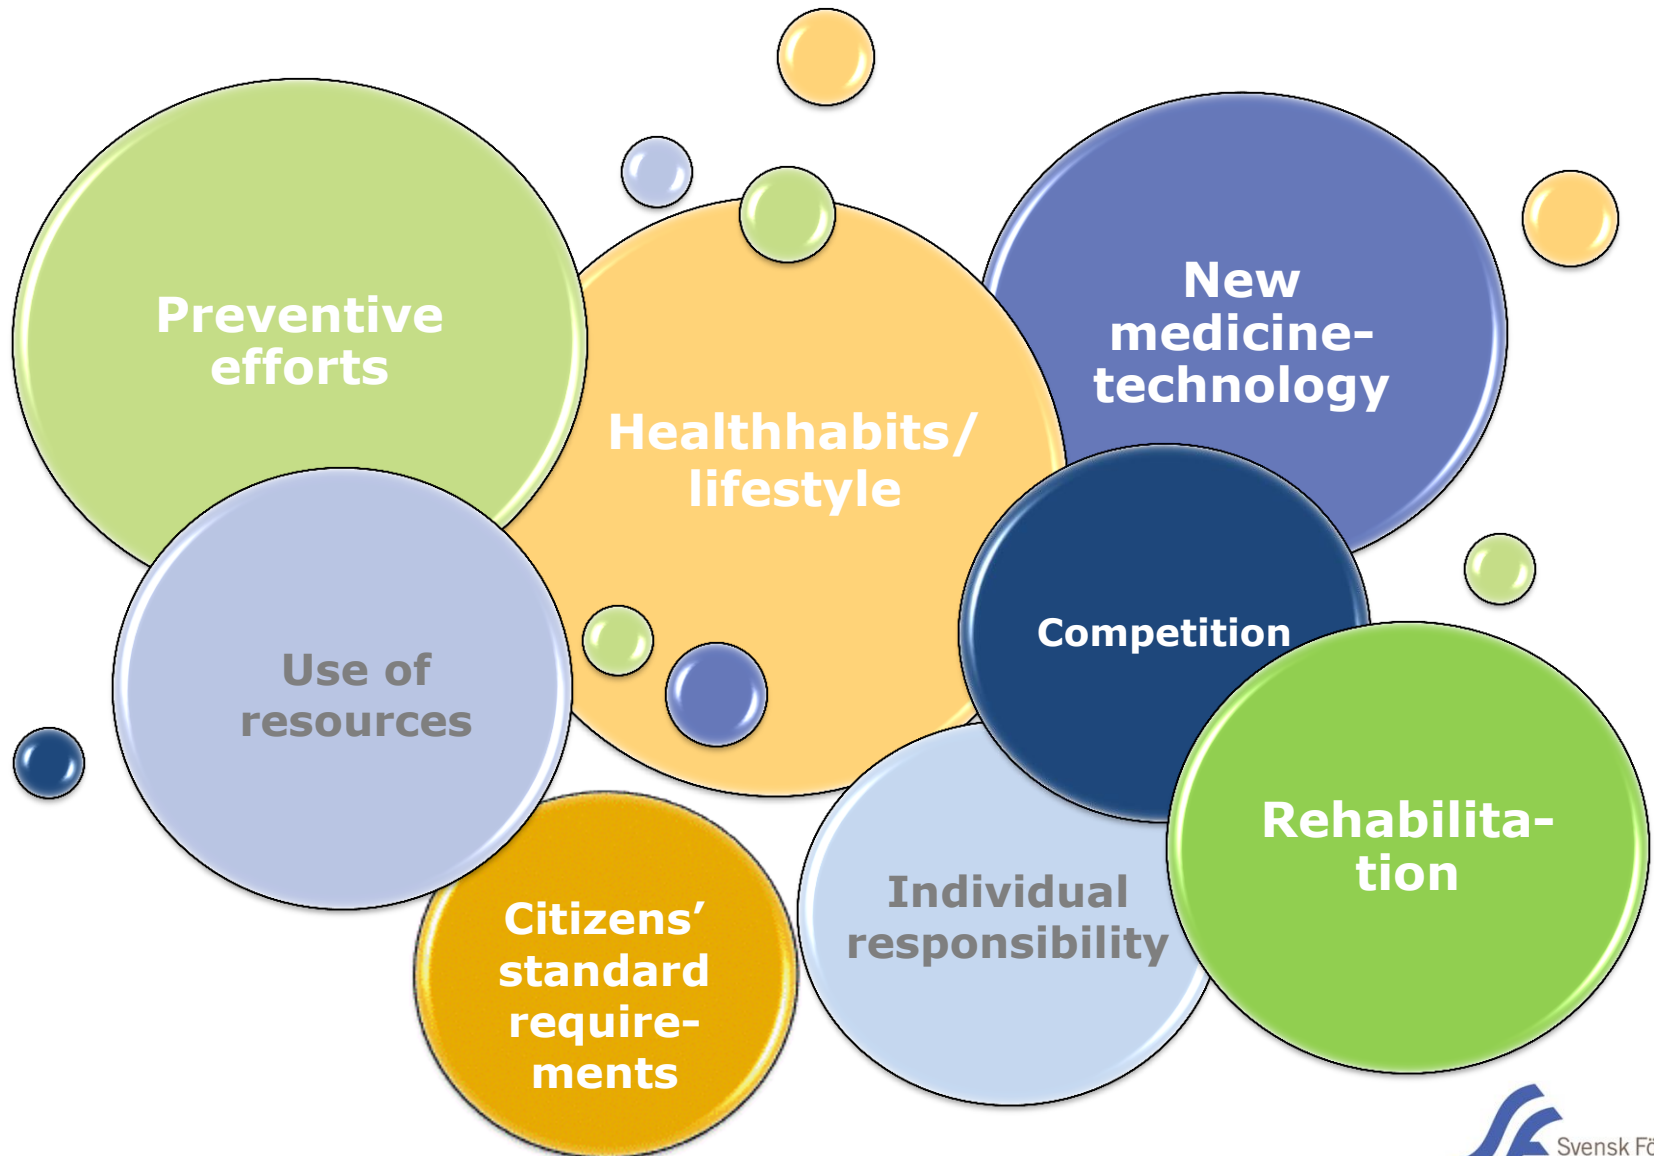

An increasing number of sick leave days

Important factors to focus on

Opportunities or challenges?

It's all about taking care of risks...
and to embrace possible improvements
